ABOUT ME

Brazilian pharmacist turned front-end developer with a passion for building user-friendly web applications. Skilled in Vue.js, TypeScript, and SCSS, I excel in delivering scalable solutions and collaborating across teams. I am continuously expanding my knowledge to create high-quality digital experiences.

TECHNICAL SKILLS

Programming Languages

HTML5, SCSS, CSS3, Javascript (ES6+), Typescript, Web Components

Frameworks & Libraries

Vue.js, Vue 3, Nuxt, Vuex, Pinia, VeeValidate, Tailwind CSS

Tools & Platforms

StoryBook, Webpack, Vitest, Jira, Confluence, Figma, Axios, Visual Studio Code, Git, GitHub, Bitbucket

Languages

English(Professional), Portuguese (Native)

EXPERIENCE

Freelancer

October 2024 - Present

- Implementing a CMS MVP from scratch for a security manager startup, focusing on scalability and user experience.
- Collaborating closely with stakeholders and UI/UX designers to deliver tailored solutions.
- **Tech Stack:** Vue3.js, Typescript, Pinia, SCSS, Git, Github, Axios, REST API, Figma

DTT - web, apps, games

March 2024 - September 2024

- Contributed to diverse internal and external projects, including PWAs, websites, and CMS platforms, across all development stages.
- Collaborated with UI/UX designers and backend developers to ensure seamless integration of features using Agile methodologies.
- Developed new features, improved code quality and scalability in high-profile projects for clients like Teladoc.
- **Tech Stack:** Vue.js, Vue3.js, Pinia, Vuex, Astro, Nuxt, CSS, SCSS, Git, Bitbucket, Axios, API, Jira, Confluence
- **Some Projects Descriptions**: SlimAcademy, Fixify World Metal Exchange, MediaMasters
- **Clients Served:** Bocca, Teladoc, Chilifestyle, Fixify, SlimAcademy, Trimbos

EXPERIENCE

Freelancer

September/2023 - March/2024

- Developed MVPs and preview websites for startups to showcase their ideas to investors.
- Delivered a CMS for charging stations, incorporating intuitive functionality.
- **Tech Stack:** Vue3.js, Pinia, CSS, SCSS, LocalStorage, Git, Github, Axios, API
- **Notable Project:**
  - **ChargeGuard**: A CMS for monitoring charging stations.
    - **Live Preview**: ChargeGuard (Login: admin@admin.com | Password: admin)

PERSONAL PROJECTS

Kanban

Live preview: Kanban

- Developed a responsive task management app with customizable boards and columns.
- Features include task creation, editing, and data persistence via local storage.
- **Tech Stack:** Vue3.js, Typescript, Pinia, SCSS, LocalStorage Git, GitHub, Storybook, HTML5, Responsive Design
- **Project code:** https://github.com/cristinakellyt/zk-kanban

Weather Track

Live preview: CheckWeather

- Built a weather tracking app with search functionality and bookmarked locations.
- Integrated API calls for real-time data and local storage for saved cities.
- **Tech Stack:** Vue3.js, Typescript, Pinia, Tailwind CSS, LocalStorage Git, GitHub, Axios, API
- **Project code:** https://github.com/cristinakellyt/check-weather

PERSONAL PROJECTS

House Company

Live preview: HouseCompany

- Developed a real estate listing platform where users can view available houses for sale and submit their own listings.
- Features include a user-friendly form for adding new listings, along with the ability to edit and delete properties.
- Implemented responsive design for an optimal experience across devices.
- **Tech Stack:** Vue3.js, Pinia, SCSS, Git, GitHub, Responsive Design
- **Project code:** https://github.com/cristinakellyt/house-listing

Entertainment App

Live preview: EntertainmentApp

- Designed a platform to explore movies, TV series, and bookmarked content with search functionality.
- Focused on smooth navigation and responsive design.
- **Tech Stack:** Vue3.js, Pinia, SCSS, LocalStorage, Git, GitHub
- **Project code:** https://github.com/cristinakellyt/entertainment-web-app

Pomodoro

Live preview: Pomodoro

- Created a Pomodoro timer application to help users manage time using the popular Pomodoro Technique.
- Built using Object-Oriented Programming (OOP) principles, initially in Vanilla JavaScript, later transitioning to TypeScript for improved maintainability.
- Incorporated customizable work and break intervals with start/stop functionality.
- **Tech Stack:** Typescript, SCSS, Webpack, Web Component, Git, GitHub
- **Project code:** https://github.com/cristinakellyt/Pomodoro

Order Summary

Live preview: Order Sumary Card

- A project where the user can select the type of its order and fill in the form of payment details.
- **Tech Stack:** Vanilla Javascript, CSS, Git, GitHub
- **Project code:** https://github.com/cristinakellyt/order-summary-component

Additional Mini Projects

- **Advice Generator:** Live | Code
- **Interactive Rating Component:** Live | Code

EDUCATION & COURSES

Bachelor's Degree in Pharmacy

Universidade Estadual da Paraiba | 2020

Web Development courses

JavaScript - The Complete Guide 2023 (Beginner + Advanced) - 52h 32m

Vue.js 3 Fundamentals with the Composition API - 1h

Vue Router 4 for Everyone - 3h

Pinia: The Enjoyable Vue Store - 1h

Understanding TypeScript - 14h 56m

React - The Complete Guide 2023 (incl. React Router & Redux) - 50h 48m - *In progress

Web Components & Stencil.js - Build Custom HTML Elements - 8h 48m

JavaScript Unit Testing - The Practical Guide - 5h 36m

Webpack 5: The Complete Guide For Beginners - 4h 50m

Build Responsive Real-World Websites with HTML and CSS - 37h 30m

Advanced CSS and Sass: Flexbox, Grid, Animations and More! - 28h 9m

To Whom It May Concern:

I am pleased to write this letter of recommendation for Cristina, whom I had the opportunity to work with for five months during her front-end development internship. During her time at our company, Cristina consistently demonstrated her value and a strong work ethic.

Cristina has a strong ability to write clean, well-structured code, even when handling complex tasks for both logic and UI. She contributed to twelve different projects using the Vue framework and consistently demonstrated a solid understanding of CSS, JavaScript, and Vue. She always took her responsibilities seriously, and I could trust her to handle tasks independently. After reviewing her code on numerous occasions, I can confidently say that the quality of her work consistently meets high standards.

Based on my experience working with her, I believe Cristina would be a good asset to any team, and I'm happy to recommend her.

Sincerely,
M. Wolters
Developer
